About Foster's Services

At Foster's Services, we specialise in delivering expert electrical and communications solutions for commercial and healthcare sectors across Western Australia. Since 2006, our team has been providing high-quality, compliant, and reliable services tailored to the unique demands of healthcare environments.

We are big enough to service industry needs yet small enough to care - offering a flexible, client-focused approach with open communication and a commitment to excellence. Our proven systems ensure seamless preventative maintenance and rapid-response solutions, even in the most challenging conditions.

With a track record of exceeding KPIs and delivering uninterrupted service, even through pandemic disruptions, we understand what it takes to keep critical healthcare and commercial facilities running safely and efficiently.

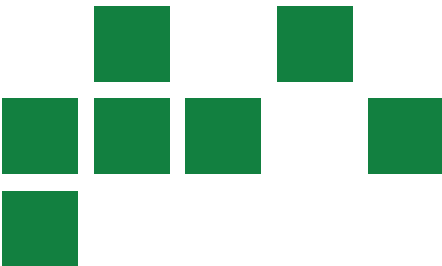

At Foster's Services, we don't just meet standards - we set them.

Why choose Foster's Services?

- Healthcare & commercial specialists – With extensive experience in healthcare and commercial electrical services, we understand the strict compliance, safety, and operational requirements of these industries.
- Proven track record – We consistently exceed KPIs and deliver seamless service, even in high-pressure environments like hospitals and aged care facilities, including during pandemic disruptions.
- Big enough to deliver, small enough to care – We offer the expertise and capacity to handle large-scale projects while maintaining a personalised, client-focused approach.
- Turnkey solutions – From design and installation to maintenance and emergency support, we provide end-to-end electrical and communication solutions tailored to your specific needs.
- Asset Management - Provide client asset management to ensure compliance, service and maintenance
- Reliable & responsive – Our proactive systems ensure minimal downtime, with rapid-response capabilities for urgent requirements.
- Compliance & best practice – We adhere to Australian Standards and industry-leading best practices, ensuring safety, efficiency, and long-term reliability.
- Open communication & flexibility – We work closely with clients, adapting to their specific needs and ensuring smooth project execution with minimal disruption.

Foster's Services is more than just an electrical services provider - we're a trusted partner committed to keeping your operations running safely and efficiently.

Services

Medical Electrical Specialists

Foster's Services is WA's leading provider of specialist electrical solutions for healthcare facilities across Western Australia. We work with hospitals, medical centres, pathology, imaging centres, dental clinics, aged care, and mental health facilities.

Our highly trained medical electrical specialists understand the complexities of working in live healthcare environments, ensuring seamless, safe, and compliant solutions. From installation and commissioning to certification and compliance, we provide a true turnkey service for:

- Cardiac & Body protected areas,
- Examination & theatre lighting,
- Healthcare auditing & compliance testing,
- Generator maintenance,
- HV/LV electrical distribution systems, and
- Asset and preventative maintenance.

Commercial Electrical Services

Foster's Services has been a trusted provider of commercial electrical solutions across Perth and Western Australia since 2006. From large-scale infrastructure projects to facility management and compliance auditing, we have the expertise, workforce, and equipment to deliver seamless, high-quality results.

Our comprehensive range of commercial electrical services include:

- Commercial electrical installation for new buildings and tenant fit-outs,
- Electrical system maintenance, testing, and repair,
- Emergency and backup power systems installation and maintenance,
- Energy-efficient lighting solutions and LED upgrades,
- Switchboard installation, upgrades, and maintenance,
- Data and communications cabling,
- Security system installation including CCTV and access control,
- Electrical compliance testing and certification,
- Energy audits and efficiency consultations,
- Preventative maintenance programs,
- 24/7 emergency electrical services,
- Project management for large-scale electrical installations,
- HV switching, and
- Exit and emergency lighting systems.

Our highly trained commercial electricians specialise in medical electrical, data & communications, EV charging solutions, and facility management with 24/7 on-call support.

Data & Communications Solutions

Foster's Services delivers innovative and robust data, communications, and networking solutions for a wide range of sectors across Perth and Western Australia.

We design, supply, install, and maintain cutting-edge systems to ensure seamless connectivity and security for commercial facilities. Expertise includes:

- Structured & network cabling (CAT6, CAT6A),
- Fibre optic installation,
- Security & access control systems (cctv, access control),
- Building management systems cabling,
- C-Bus/DALI lighting control systems, and
- Auditing & compliance testing.

Foster's Services tailored, high-performance solutions keep your business connected and secure.

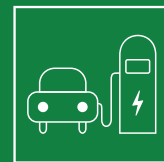

Electric Vehicle (EV) Charging Solutions

Foster's Services is the trusted EV charging installer for facilities across Western Australia, delivering reliable and sustainable charging solutions for retail, public spaces, and commercial car parks.

Our end-to-end services include design, supply, installation, and maintenance, helping you streamline charging costs and future-proof your facility. Our EV charging expertise includes:

- Site assessments & viability studies,
- Load management systems,
- Charging station administration & management,
- Preventive maintenance & repairs, and
- Turn key solutions.

We make EV charging seamless, efficient, and scalable.

Safety, Quality & Environmental

As a Gold Accredited Master Electrician with multiple ISO accreditations, Fosters Services demonstrates exceptional commitment to quality, safety, and environmental responsibility.

ISO 9001 (Quality Management)

This accreditation ensures that Fosters Services:

- Maintains consistent quality across all electrical services
- Has documented procedures for continuous improvement
- Regularly reviews and enhances service delivery methods
- Tracks customer satisfaction and addresses feedback systematically

ISO 45001 (Health & Safety)

This certification demonstrates that Fosters Services:

- Prioritizes worker safety with comprehensive risk management systems
- Implements preventative measures to reduce workplace incidents
- Maintains detailed safety protocols for all electrical operations
- Conducts regular safety training and improvement initiatives

ISO 14001 (Environmental Management)

This accreditation verifies that Fosters Services:

- Follows environmentally responsible disposal practices
- Minimizes waste in electrical operations
- Implements energy-efficient solutions
- Reduces the environmental impact of business activities

ISO 17020 (NATA Inspection Accreditation)

This prestigious accreditation, specifically in the inspection discipline, confirms that Fosters Services:

- Employs technically competent staff for specialized inspections
- Uses calibrated, precision equipment for accurate assessments
- Follows internationally recognized inspection methodologies
- Delivers impartial and consistent inspection results

These comprehensive accreditations ensure that Fosters Services' testing procedures, record-keeping practices, and operational standards not only meet but exceed Australian Standards, positioning the company as a trusted industry leader delivering bespoke services to the healthcare and electrical contracting sectors.
